(54) Title: PERSPECTIVE FUNCTION FOR SIMPLE PROGRAM GUIDE

(57) Abstract: An electronic program guide (100) includes a first list (105) with first information and a second list (110) which is displayed concurrently with the first list (105) in response to selection of a selected information (115) from the first information, which includes a channel list, a theme list, a time list, a favorite list or a reminder list, switchable in response to activation of a programmable perspective switch (155, 250). The first list (105) is displayed in response to accessing the electronic program guide (100), such as by activating an access switch (240) of a remote controller (200). Both the first and second lists are displayed in response to accessing the second list, such as by double clicking on the access switch (240) or activating a program switch (245) of the remote controller (200). The second list includes information associated with the selected information from the first list.
